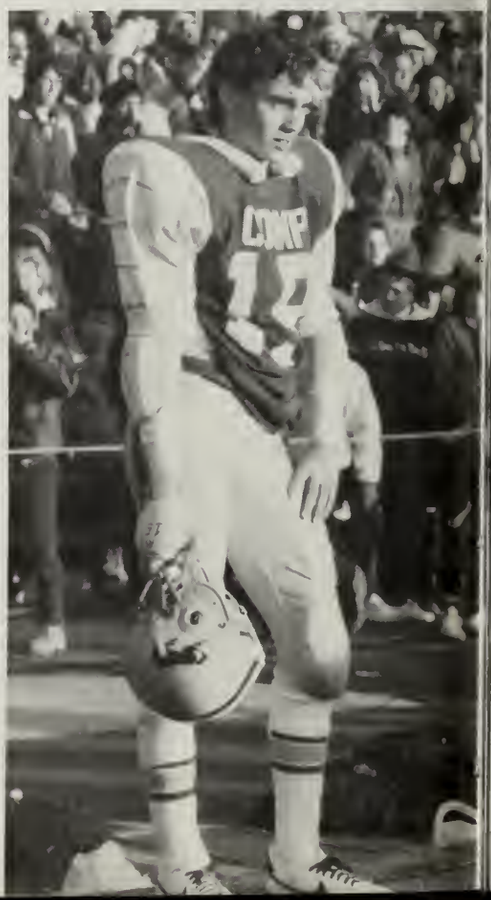
BOOKENDS

Time it was.
And what a time it was,
It was . . .
A time of innocence,
A time of confidences.
Long ago,
It must be . . .
I have a photograph
Preserve your memories;
They're all
That's left you.

Paul Simon



Dedicated to Mrs. Judith Chelte for her love of and dedication to teaching, her enthusiasm, interest and concern for all students, and for her selfless giving and support. Because it is not often that our lives are affected by such a remarkable person, we shall always remember the effects she has had on us during our time at Comp.

1986 . . .

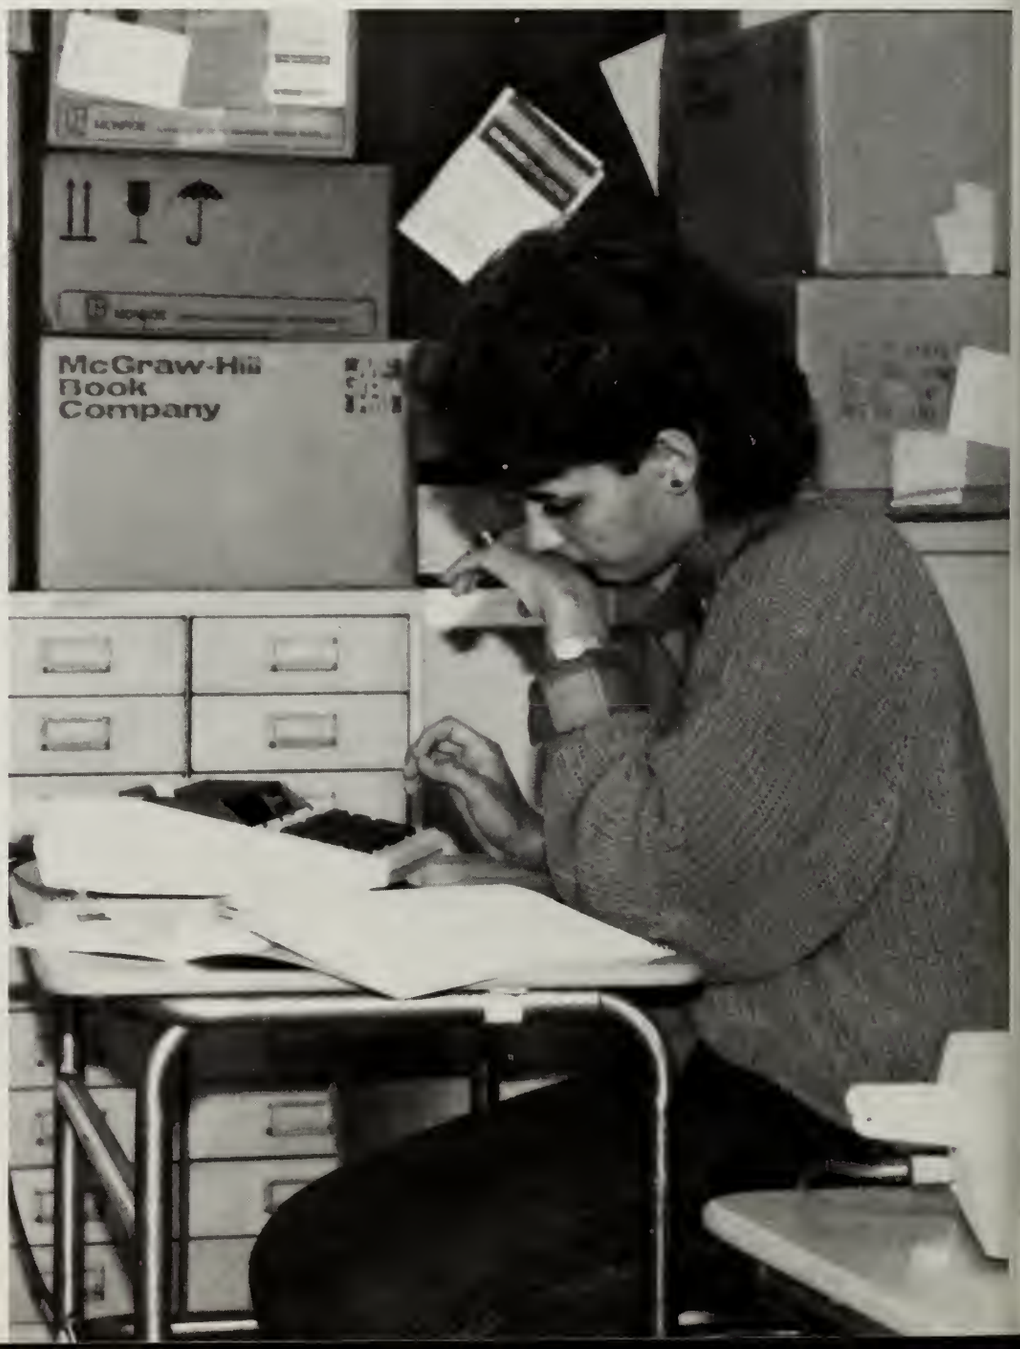
To some people, 1986 will be remembered as just another year. To those who were a part of Chicopee Comprehensive that year, it will be a carefully preserved memory of a special time . . .

A time of good and bad: of A's and E's, triumphs and defeats, laughs and tears . . . A time that will affect the rest of our lives.

. . . A Time To Remember

. . . A time for learning

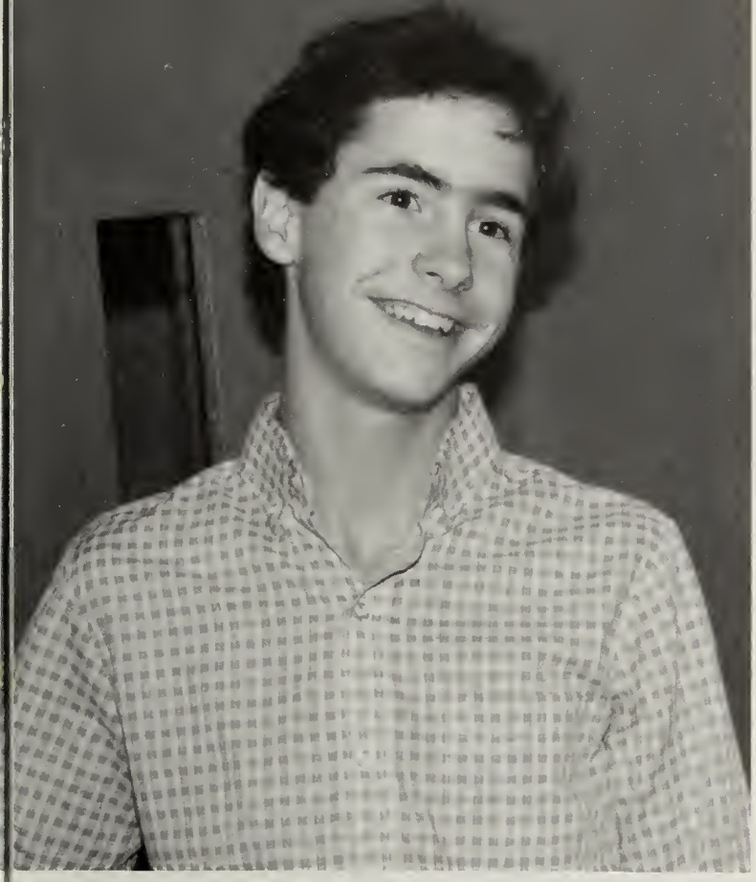
We learned from books, experiences, and each other in 1986.
From every homework assignment, term paper, oral report, and final exam, every fight and broken relationship, every special moment shared, something positive was derived.
We learned.



We learned about Shakespeare and the scientific method, auto repair and American government, about love found and lost and found again . . . about people.

. . . A time for involvement

We established ourselves as members of a society to which we contributed greatly. We laughed, cheered, cried.



We left a part of ourselves which will remain a part of Chicopee Comprehensive High forever.

. . . A time for friendships

Friends we will never forget.

. . . A time for growing

As time goes by, we must grow and accept change. We grew at Chicopee Comprehensive in 1986.

Graduating seniors preparing to face adulthood,

anxious underclassmen
anticipating upward mobility,

and experienced faculty learning
as they taught all grew in that
process of accepting change.
We grow as a result of retaining
knowledge, preserving
memories.

. . . Time to shine

We must now depend upon our memories of Chicopee Comp-1986 to guide us through our futures. It is our responsibility now to improve the world for the next generation. We must learn from our past mistakes, become a force, and make a difference. 1986 . . . our time has come.

Activities

Fall Sports Rally

Steve, be a man and lift your head up. (Mike Kijak, Steve Sawa)

He is actually wearing a suit and tie!

Inspiring words and good wishes from Mr. Kuzdzal.

Enter the athletes.

Tim Edwards and Cheryl Theroux introducing the cross country team.

The annual Fall Sports Rally was held on Friday, September 20, 1985. Athletes representing each of Comp's fall varsity sports, as well as representatives of the administration and student body, wished each team good luck for the coming season. Seniors showed their support through the traditional wearing of hats. All four classes united in encouraging the teams on to an extremely successful season.

Perfection

A few words from Coach Tom Skypeck.

Yes, we did have a winning season.

Senior class president Kathy Stec leading the way.

The SENIORS (and their hats)

Stacey, I forgot what to say next. (Kim Hoime, Stacey Morris)

Did you see that *girl!*

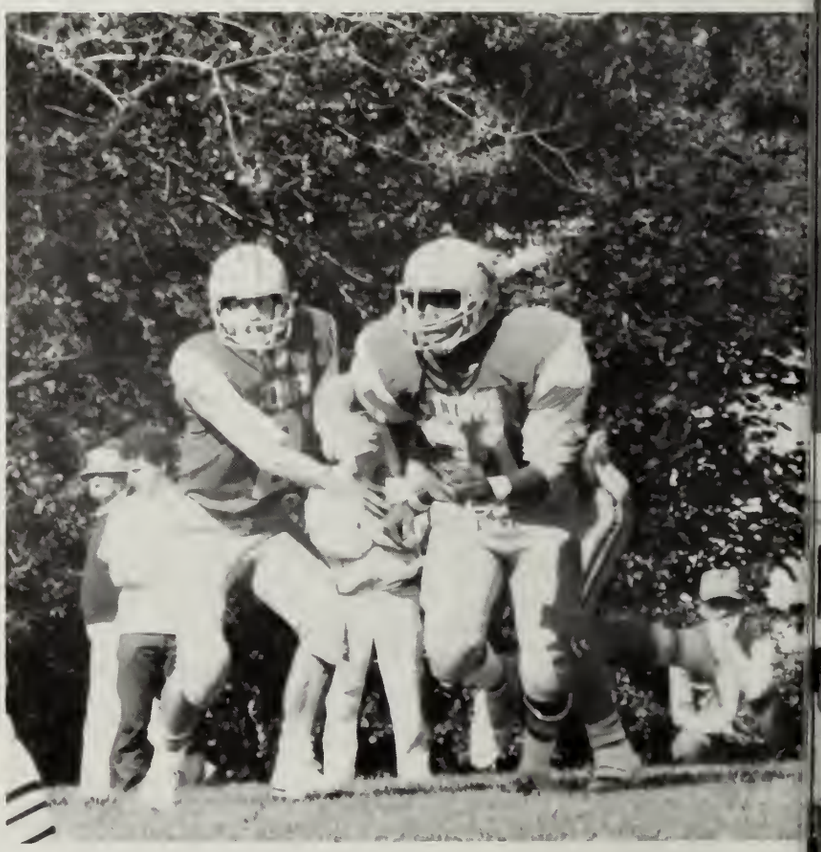
Homecoming Game

Let's go get them!

Stop pulling my leg!

Hey guys, I think they want us.

Despite Hurricane Gloria, the Homecoming weekend was a great success. The game was played as scheduled with a triumphant win of 55-0 over Chicopee. The annual spaghetti supper and Hootin' Rally followed the game.



Run, John, Run! (John Griffin, Matt Lunardini)

Cheerleaders showing their Homecoming spirit.

Hootin' Rally

The queen and her court. Wendy Tolpa, Ann Hamel, Joyce Rondeau, Wendy Zaitchik. Shawn Malone, John Griffin, Bob Desmarais, Tom Dubreuil.

Senior lady and her man. (Carole Amnotte, Bob Desmarais)

Those million dollar smiles! (Nancy Carlos, John Griffin)

Looks can be deceiving. (The Senior Powder Puff Squad)

Girls have more fun. (Tom Murphy, Mike Kijak)

Usually held on Friday evening, the annual Hootin' Rally was held on Saturday because of Gloria'a arrival. Maybe this change had an effect in the Seniors' loss to the Juniors in the annual Powder Puff contest.

Halloween Dance

Bedtime story favorites. (Christine Stevens, Ann Laflamme, Aimee Dezalia)

We're off to see the wizard.

Meet my mom! (Scott Gadoury, Dan Jalbert)

Say what? (Chris Ward)

Friends forever (Pam Martin, Wendy West)

Hollywood here we come. (Martha Leonard, Michele Comeau, Michelle Quenneville)

Prima Ballerina (Adam McLean)

Whatever turns you on. (Wendy Zaitchik, Ann Watson)

Style is their middle name.

Hey, Amigo! Que Pasa? (Matt Lunardini)

The few, the proud, the Colt Cadets!

The Halloween dance, sponsored by the Senior class, gave students a chance to show their creativity in a variety of ways. The turn out was one of the biggest of the year.

Fall Sports Banquet

Growing boys need their milk.

Did you get my better side? (Tim Edwards)

Tom Murphy receives his senior award after four years of tending goal.

Mr. Kuzdzal presents the Fitzpatrick award to Barb Houle.

The annual Fall Sports Banquet was held on November 30, 1985 at the Knights of Columbus. The fall sports' athletes enjoyed an evening filled with speeches, awards, honors, and dancing, topping off a very successful season.

Kim Roy picks up her J.V. Soccer Coach's award from Mr. Martell.

Who are you looking at? (Jennifer Martin, Dave Girouard)

Who's picking on you?

Let's get down! (Kim Clark, Kim Cairns, Judy Griffin)

We're together alright! (Pat Wiley, Anne Watson)

That's right, we're bad!

We're strutting our stuff. (Julie Houle, Ann Richards)

Thanksgiving Rally/Pancake Breakfast

Getting psyched for the big game.

Inspiring words from Senior Class President, Kathy Stec.

Dig in, Danny! (Dan Jalbert)

Thanksgiving Day brought with it much unpleasant weather. Despite the rain and sleet, Comp was victorious over South Hadley in a 22-0 win. This year's game ended our Thanksgiving rivalry with South Hadley.

Wake-up guys, it's going to be a long day!

Morning Fresh!

Thanksgiving Game

Orders from the Ref! (Pat Sledzieski)

Dirty, but ready!

Through rain, sleet, or snow, loyal fans will always go!

The start of a long game!

A Thanksgiving greeting. (Mr. Kuzdzal, Mr. Pinciak)

A muddy mess.

Thanksgiving Game

There's no stopping us.

We're prepared for anything and everything! (Kirsten DuBois, Joyce Rondeau)

Alright, who ordered the rain? (Marek Drabinski)

Who do you think will win the Super Bowl?

Nothing is going to stand in my way!!

Winter Cotillion

Tom, watch the birdie. (Tom Dubreuil, Erinn Dolan)

Hey, look at that good lookin' girl over there. (Don Coulombe, Marc Gendron)

A match made in heaven. (Kelly Dolan, Bill Brousseau)

Do we look like we're in "Heaven?"

Wild and Crazy! (Mike Kijak, Brian Frew, Rob Desormier)

The annual Christmas Cotillion was held December 30 at the Storrowtown Theatre Carriage House in West Springfield. The theme of this year's affair was "Heaven." After enjoying a delicious meal, the couples danced to music provided by a D.J., instead of the traditional live band entertainment.

"Yes!" (Dan Jalbert)

Let's show them something. (Michelle Franklin, Brian Frew)

I caught a fish this big! (Bill Boutin, Missy Holt)

Click!! Picture perfect

Does she ever stop? (Beth Desormier, Matt Lunardini, Pam Martin)

Aren't the students acting so well! (Mr. and Mrs. Kuzdzal)

Christmas cheer (Michele Carrier)

Sitting pretty (Tina Walsh, Jackie Fortier)

Shall we dance? (Danielle Dion)

What service!! (Will Medina, Tony Lauzon, Dennis Francis)

Yeah, I'm having fun. (John Peets, Jennifer Donnelly)

Pretty as a picture

Friends forever (Steve Tisdell, Wayne Daviau)

Doug Cutter and Michele Benoit at the Christmas party.

The C.C.H.S. Student Council has advanced tremendously. This past year, with the guidance of advisor Mrs. Leonard, the Council sponsored many dances, including the Hootin' Rally, the January Hawaiian dance, and the annual H.E.R. Dance, school events such as the Spring Frolics, trips to New York and Mexico, and numerous other events serving the student body. Under the leadership of President Tom Dubreuil, the C.C.H.S. Council became one of the best student councils in Western Mass. in 1986.

Our illustrious leader (Tom Dubreuil)

Approaching the season, we knew we could have a great year. We realized we had the coaching, desire and talent. All that was needed was for us to pull together and work 110%. Through tremendous pride and determination, we came away with the 1985 -AA- Conference title and became the second team in Comp. history to play in the Superbowl.

We wish next year's seniors the best of luck and hope they will have as much success as we did.

Good Luck,
The Seniors

'85 Season

The 1985 boys' varsity soccer team finished its most successful season in ten years in compiling a 12-2-2 record. Noted as one of the most aggressive teams in Western Mass., the team finished 1 point out of first place in the Smith Division. The soccer team was spearheaded by a defense which allowed just 10 goals all season, the best in Western Mass. This defense consisted of Steve Sawa (All-Western Mass., All-State), Tom O'Donnell (All-Western Mass.), Mark Nadeau, Glenn Beauregard and Jerry Gilbert. Goalie Tom Murphy recorded 10 shutouts which was also the best in Western Mass. The offense, which came on strong in the last half of the season, scored 43 goals and was led by Jim Lafleur and Mike Kijak. Coach Davis got the best out of this talented team and led them into the Western Mass. quarterfinals. Although this team had nine seniors, there were also many talented underclassmen, including juniors Dave Labonte and Will Medina, sophomore Steve Kijak and freshman Dave Girouard.

Faculty

Administration

Congratulations to each member of the class of 1986 on having achieved a significant and important goal — graduation from high school. There is no doubt in my mind that the Chicopee Schools have prepared you well. You now possess the certification which our society has established as necessary to continue your education, seek employment or enter some form of public service.

As you approach the post high school phase of your lives, I would urge you to bear in mind always that the real tests are about to begin. You can choose to accept passively the experiences which life will provide for you, or you can choose to master these experiences and use them to achieve your own goals. You can choose to build a life on outmoded and outdated conceptions of the world, or you can choose to realize and act on the fact that for virtually the first time in human history our lives will not be governed by the same assumptions which governed our forefathers' lives.

Whatever you choose, do so wisely and always with a clear perspective of the future, an understanding of yourself and a sense of obligation to those who have placed their faith in you.

My very best wishes for continued success and happiness,
Guy DiBiasio — Superintendent

Guy Dibiasio - Superintendent

Mitchell Kuzdzal, Principal

I congratulate each graduate in the Class of 1986 upon the successful completion of his/her first giant milestone toward the future. Undoubtedly, you are eager to pursue your goals with enthusiasm, determination and seriousness of purpose. Graduation is far from being an end; it is just the beginning of all your tomorrows. Over the past several years, you have worked and studied, practiced and played, and grown - grown mentally as well as physically - and now, you are here, ready to begin your lives as members of the adult community.

For some of you, this will mean a job and the responsibilities related to self-independence and family living. For others, this will mean college and further years of study and preparation. Whatever course YOUR future takes, it is my sincere hope that you will look back on your years here as having prepared you to meet and deal with the challenges that life will present.

I wish each of you the happiness of a productive life, the respect of your fellow human beings, and the love of your family. May the future be yours.

It gives me great pleasue to offer my congratulations to the Class of 1986.

You have all been part of a process that has given you a wide variety of knowledge, but you all must remember education does not stop with graduation and is a continuing process.

It is important that we meet the technical challenge of the future and keep atuned to all technological changes and expand upon the skills you all have acquired in secondary education.

I wish you all good luck and happiness for the rest of your days.

Teaching the ropes

Today's fast paced technology in any vocational field can only be serviced by a well trained individual. The individual will then, in return, be rewarded with well paying jobs and a bright future. Vocational education is here to stay, and students who take advantage of the vocational programs at Chicopee Comprehensive will find themselves with the very best entry level skills available. -**A. Petrucelli**

The role of vocational education in preparing the nation's work force is becoming more and more crucial as we move to the year 2000. It will not only have to provide instruction to our students in the core competancies, basic skills, and proper work habits; but also teach them how to learn, maintain positive attitudes, work with all types of people, and how to appreciate the need for life long learning. -**Clyde McClelland**

Drafting is known as the "language of industry". It is a "graphic" language of symbols that communicate ideas from the designer to the craftsperson. Most manufactured products and all major buildings were first created on a board by a drafter. The students in the drafting program are learning skills required to succeed in industry. They are using computer assisted drafting equipment to enhance their skills. - **L.M. Smith**

The class of 1986 has exhibited maturity, sportsmanship, and intellegence. Whether they were part of a bus trip to New York City or at the high school Super Bowl at Benedum Field or in Advanced English class, the seniors whom I have known illustrate the promising potential they have as future leaders and as responsible adults. I have been fortunate to teach some of these seniors. They are cooperative and participate in class, trying — no doubt under difficult circumstances — to excel. While challenges and setbacks are not easy to accept, those obstacles are part of everyone's life. If I could leave these students with one thought, I would ask them to remember that the English poet Robert Browning said, "A man's reach should exceed his grasp ... " Nothing that we truly value in life comes to us easily; we treasure those goals that we work for, not those that are handed to us. We, as thinking, feeling, intelligent men and women need challenges if we are to continue to grow and to lead.

Scrutinizing homework (Miss Brunelle)

At some time during your four years here at Comprehensive High School, I have had the pleasure of teaching or just conferring with many of you. The future will present many obstacles and challenges for you to overcome, and you must meet with them.
Your energy, enthusiam, and hard work are certainly good pre-requisites for a successful future.
My congratulations and best wishes to the class of "86".

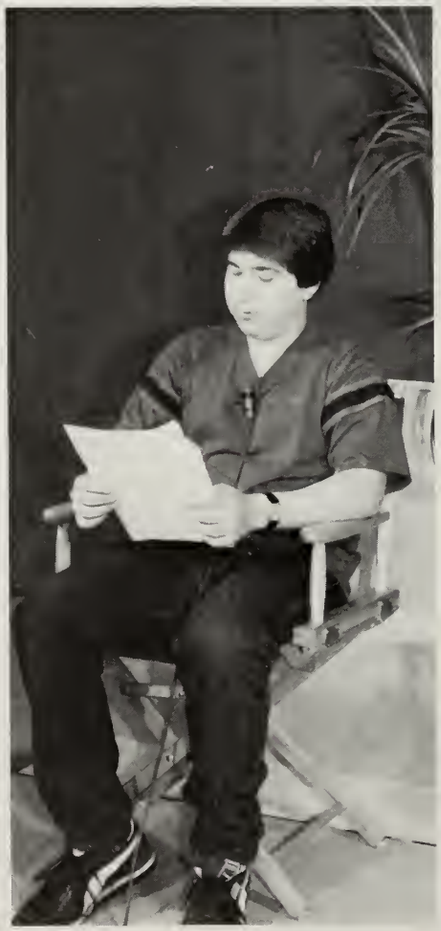
Exploratory

Exploratory shop is the beginning of vocational education. It goes briefly into several different studies, giving the students an idea of what the different shops are like. This experience gives the students the opportunity to choose the shop they like the best.

Telecommunications

Telecom classes are located off school grounds at the T.V. Center in Chicopee. In the first year of the course, the students are trained in photography, including the use of a camera and the developing of the film. In the second year, the students are trained in the use of television equipment. The students receive hands on training in television by broadcasting city meetings and local sports events.

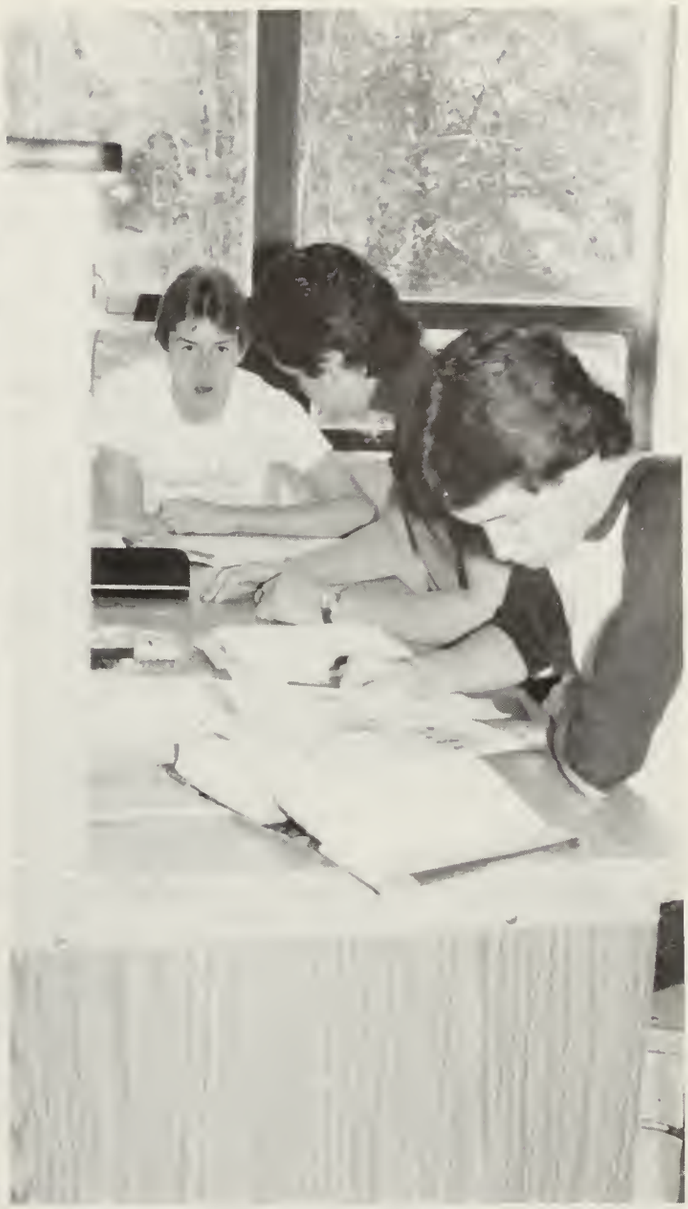


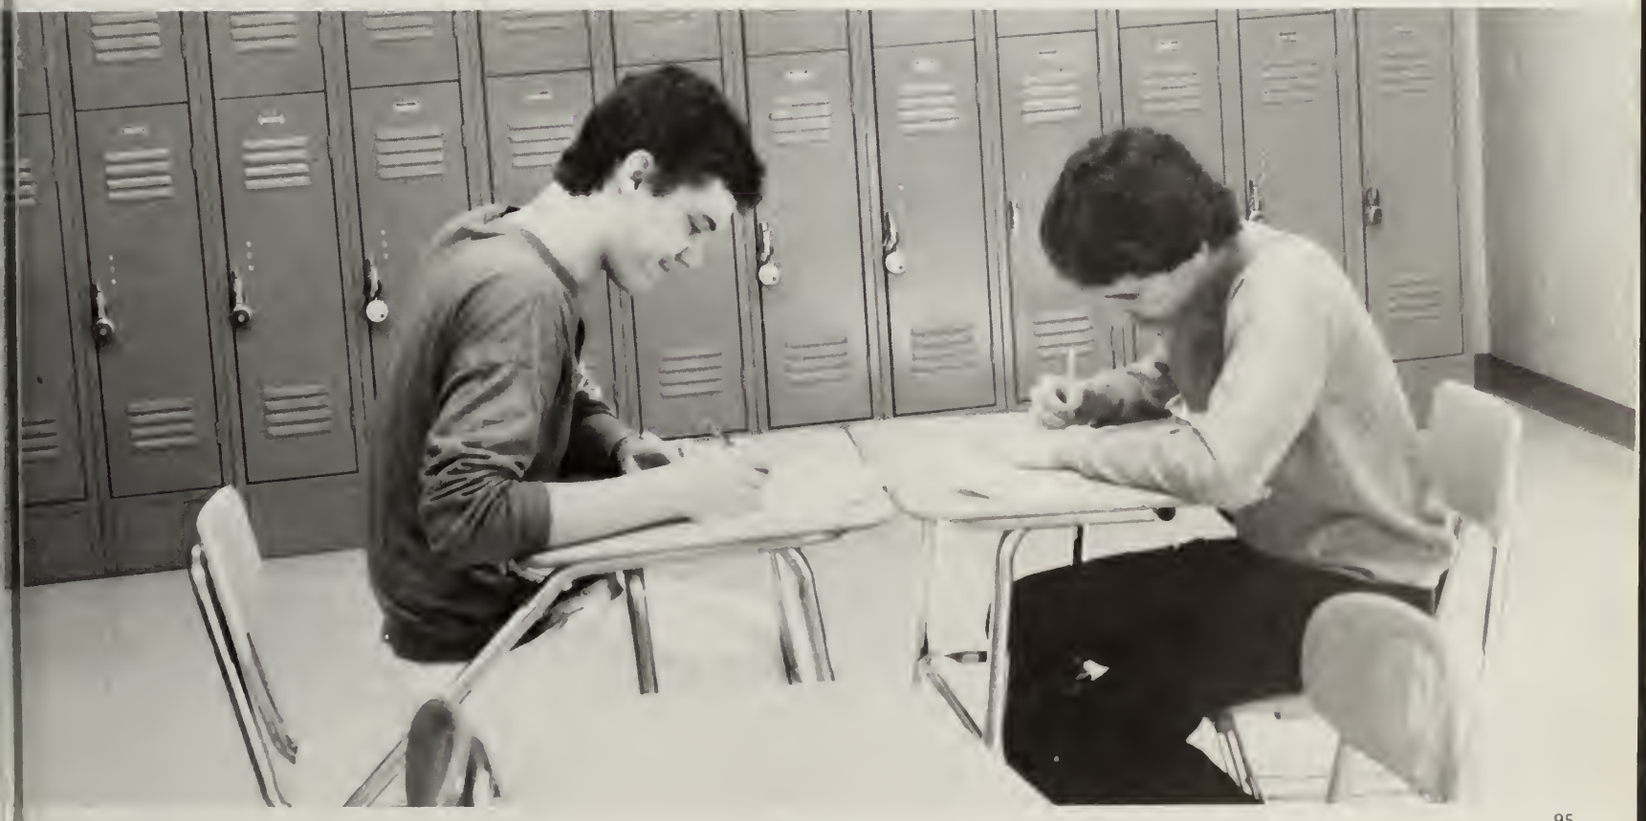
D.E.C.A.

Deca is an academic study that informs the students on the distribution and sales of assorted items. The students put these skills to use in running the school store, which sells assorted types of candy and clothing.

Electronics

Electronics is a shop in which students learn the art of trouble-shooting (pinpointing the malfunction of the object to be repaired). The students then work on using their trouble-shooting skills by fixing televisions, radios, and most other electrical objects.





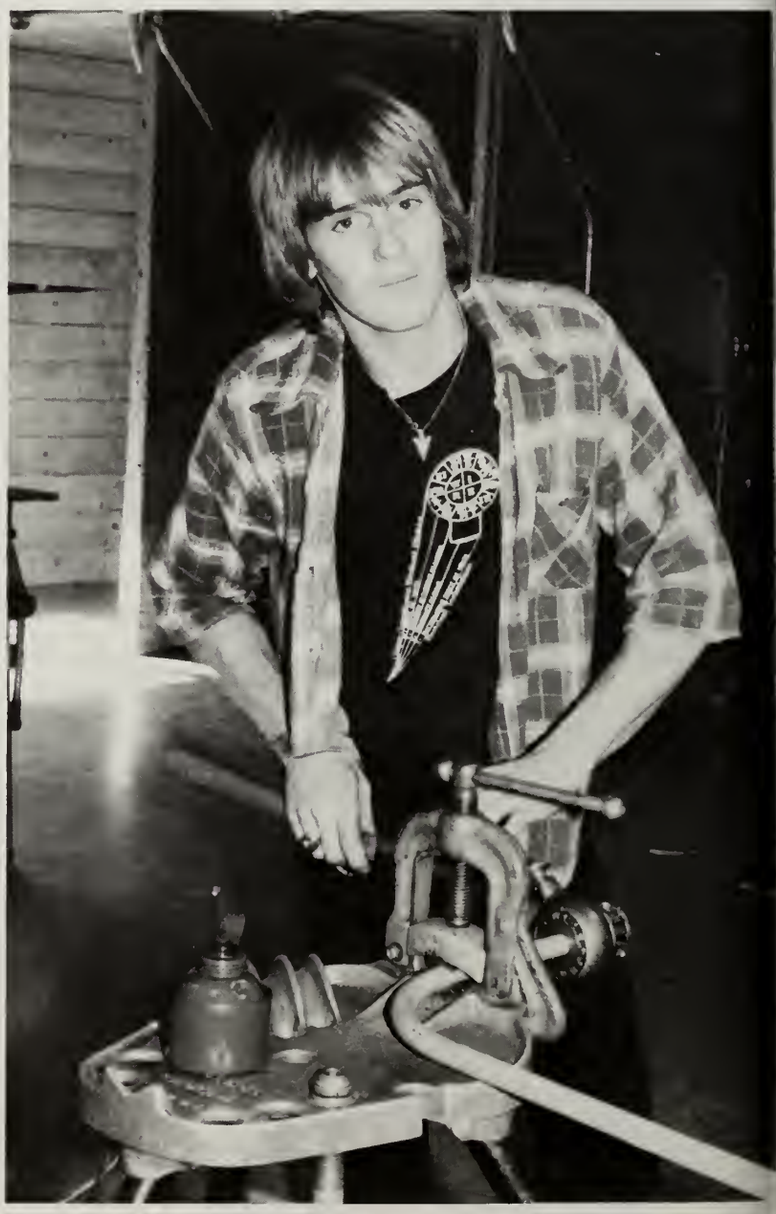
Power Stitching

Power Stitching teaches students to make all kinds of different articles, such as clothing, pillows and pocketbooks. The students in this shop have the added extra of being allowed to keep everything they make.

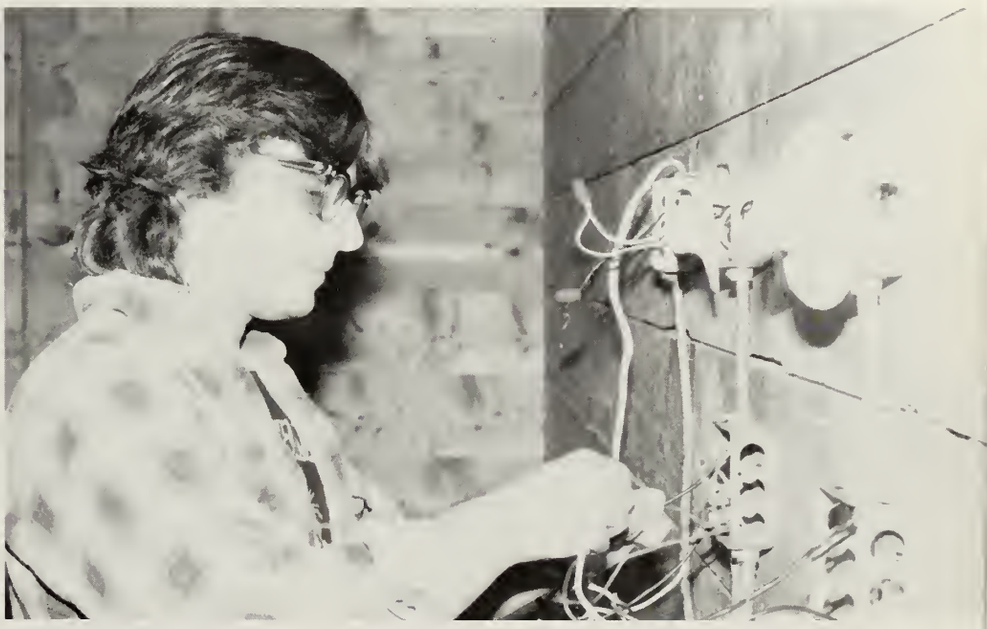
Drafting

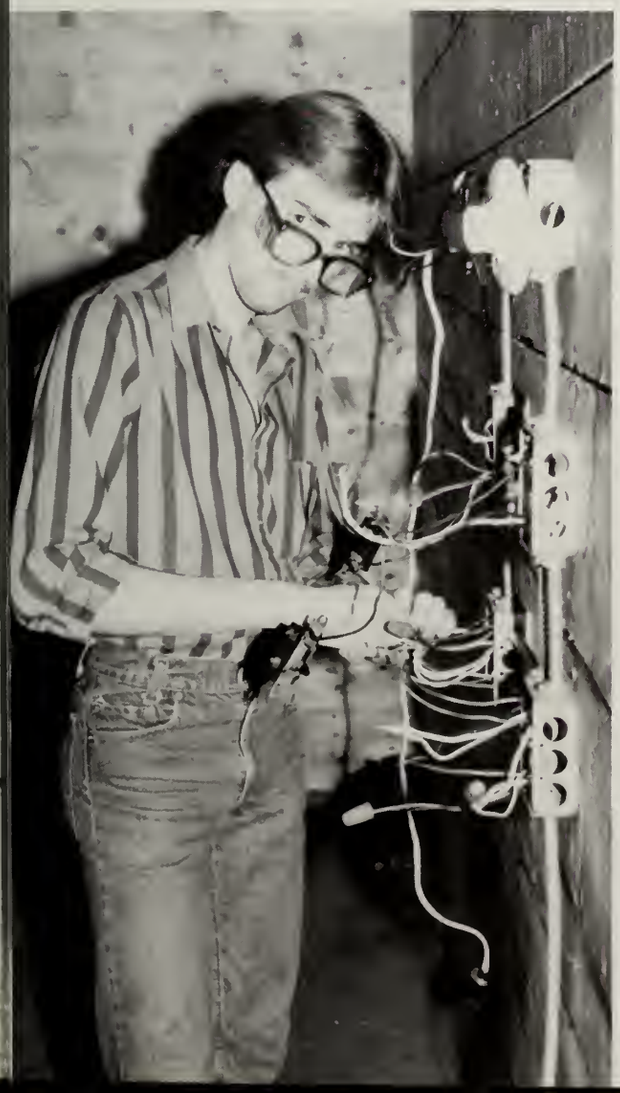
Drafting is a shop in which students learn to draw up plans for buildings and many other objects. Students also have the opportunity to develop computer skills that will enable them to use computers for drafting.

Electrical



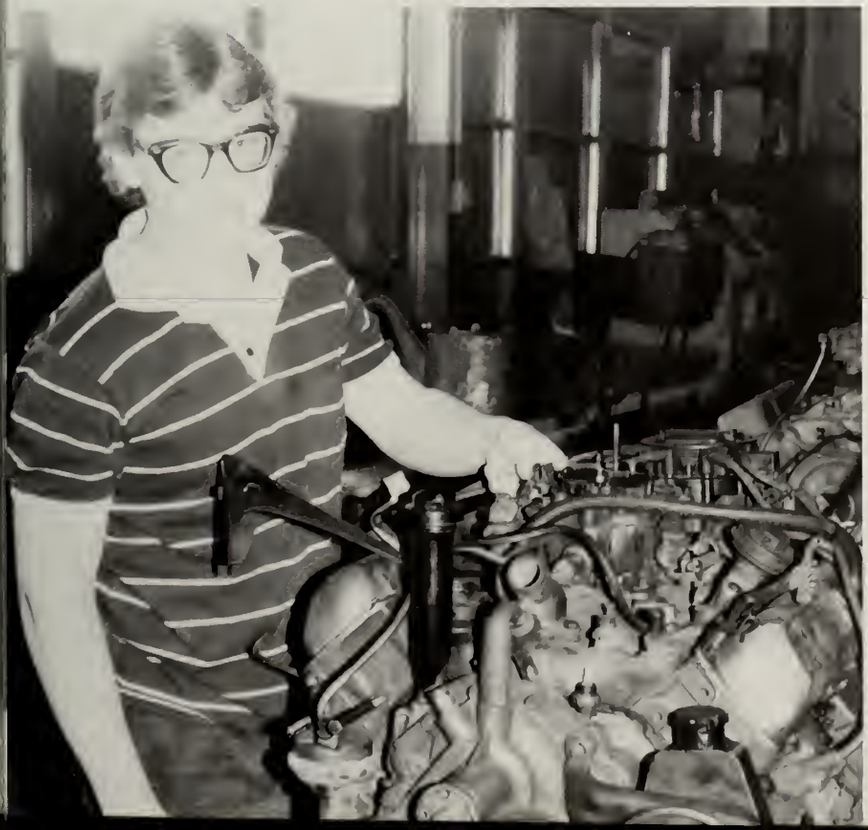
Electrical is a shop that teaches students the uses of non-metallic sheath cable, armored cable, conduit, and wire mold, which are supplies used in different electrical wiring methods. The students put these uses to work in an actual house that is set up in the shop. This house is used to teach the future electricians everything they need to know about the electrical trade.





Auto Repair

In the auto repair shop, students are taught precise methods of repairing any of the components of a car. The students are provided with state of the art equipment to diagnose and correct any problems that cross their paths while they are working on the cars in the shop.



Auto Body

Auto Body is a shop in which students recondition the exteriors of cars. The students employ many different methods to repair dents or scratches and to remove rust from the bodies of cars. People from outside of the school bring old and new cars to be either restored or repaired by the skilled students in this shop.

GRINDER — 55 lbs
DAS
PRIMER

Cabinet

In the cabinet shop, students are taught to build many different wooden articles such as shelves, coat racks, and clock casings. In this shop, students have the right tools to do almost anything this highly demanding trade requires.

Welding

Welding is a shop that enables a person to repair, bond, or reinforce metal objects by the use of different kinds of welders and torches. This shop is very helpful to the school in that it repairs broken chairs, tables, shelves, and virtually any other metal objects that are broken or cracked.

Machine

In machine shop, students are trained on several machines used to cut solid steel cylinders or blocks to a specific size. This steel is then used for making tools such as scratch awls, plumb bobs, clamps, and many other items.

"If I were to make a time capsule, I would put in my diary, pictures of my family, and my dancing gear so people will know what I liked to do in my spare time and will know all about me." (Kym Peloquin)

"If I had to make a time capsule, I would put a handful of fad items. I would put a Hawaiian shirt into it because it is a fad along with everything else I am writing about. Another fad is docksiders (boat shoes). I would bury my gold necklace because it means a lot to me. Of course, I'd include *Chess King* clothes. This is all that I would put in my capsule.(Gene Kingsley)

. . . and we danced . . . (Todd Whipkey)

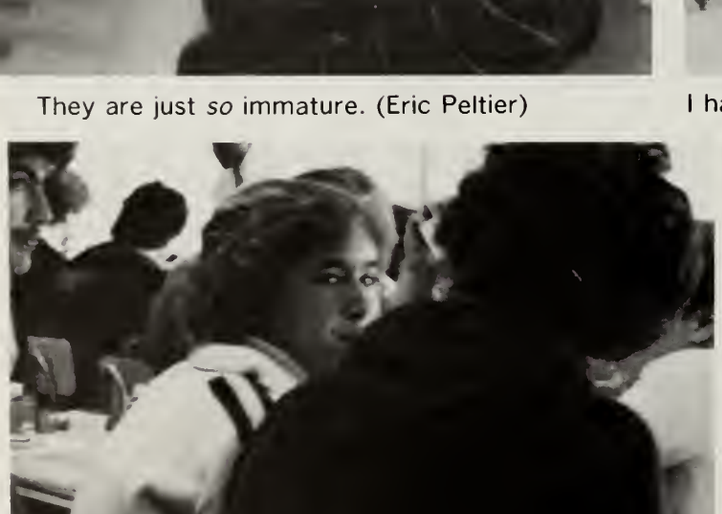
Word problems are such a pain. (Scott Garvin)

"I think some things that should be put in a time capsule are computers because they are important now, miniature models of the shuttle and space lab, examples of good rock & roll, a pair of high top sneakers and a black leather jacket, something to represent the U.S.'s deficit and economy, and some sort of gun to represent the threat of war." (Eric Peloquin)

"If I were to build a time capsule, I would include a computer to show what made life easier for man and will soon be used by everyone, a car to show how man got around and sneakers to show what man used to protect his feet while walking. I would put in a *Time* magazine to show everything that happened in 1985. I would include a list of sports played around the world to show what sports they don't play and to see if any new sports were invented. A nuclear bomb is in here because I want to show the world what could destroy countries and scare millions, a picture of New York City to see how it changed from 1985 to 2085, a space shuttle to show how man travelled the universe and found out about space and our planets, a picture of Ronald Reagan to show the President of the '80's and the oldest president ever to be in office, a 1985 penny so they could put it in their coin collection, a cigarette to show what killed millions of people, a few different styles of clothes of the '80's to show what we wear now, a *Consumer Report* magazine to show what cost what in 1985 and to compare prices from their time to ours." (Jeff Borchers)

They are just *so* immature. (Eric Peltier)

I have a tough life. (Norman Burgess)



This is a poor excuse for food. (Kym Peloquin)

You expect me to believe that? (Jeff LaBonte)

I'm cool. (Tim Foley)

A ... S ... D ... F ... space ... J ... K ... L ... ; (Amy LaBelle)

Are you *sure* this is where I get off? (Christopher Lariviere)

Ta-da!! (Kim Desrochers)

You're *so* funny! (John Deyrel)

"If I were to build a time capsule, I would probably put in clothes to show the style and fashion we were wearing, some books to represent the many fine talents of the authors. Newspapers would be a good source to put it in. It would show the people what events had taken place. Records and tapes would show how and what we listened to music with. Money would be put in to show our wealth and what we traded with. A photograph would show who ever found the capsule what we looked like in years past, a football to represent one of our favorite sports and activities; a phone would show one of our ways of communication. A walkman could represent the advanced technology. A Cabbage Patch Kid would show what the children of our time had to play with, also a city map so that whoever finds this will know what their city looked like years ago. (Jennifer Landry)

"First of all, I would put in a time capsule beautiful ballads and love songs from the different kinds of music; rock, soul, pop, etc. This is because the music in our society today shows how people feel and think. Also, I'd put a recording of 'Live Aid', 'We Are The World', and 'Feed The World'. The reason being is to show that in time of need, people come together from all over the world to help the less fortunate. Also, a picture of the late Samantha Smith would be included, because this shows how the love of children touches the hearts of everyone everywhere to symbolize how people are trying to stop nuclear war or any war from happening and to just live peacefully. In conclusion, I would try to put in this time capsule things that will show the good in all of us, and that in time of need, we always forget our small troubles to help the ones who really are in need." (Elizabeth Disla)

Stop following me. (Jeff Chagnon)

I hope *that* water's cold! (Dave Girard)

"If I were to build a time capsule, I'd put in a computer with a floppy disc with all the interesting major things and events that happened in the past ten years, also, designs of older and newer cars to show how we progressed. I would also put in the latest games to show what we did for entertainment, and newspaper clippings of major events. I would write a letter saying: "To Whom It May Concern, If the earth has not had a nuclear war, please keep it that way. Don't start any wars. Try to make peace with other nations because people don't like to live in fear of nuclear war or be worried about being blown up. The leaders of our nations tried to make peace and called 1986 *The Year of Peace*. Why don't you do the same (if you haven't already)? Instead of one year, make it forever." (Chris Carroll)

"If I could travel through time, I would go back to the prehistoric times. I would do so because I'm curious about how people could live and survive on nature itself, with no electricity, cars, supermarkets, or any other luxuries that we take for granted today. I would also like to know how the prehistoric life differed from the life of today, and how the people differed in appearance. I would explain the present time as an inconceivable and highly advanced world compared to that of prehistoric times. I would also explain the present time as a world capable of doing almost anything to improve the conditions we live in, but at the same time a world that is capable of destroying itself." (John Llodra — #1 academically)

I'd rather be at a party! (Ron Winnett)

I'm ready for summer, *now!!!* (Doug Cutter)

You didn't actually say that, did you? (Kim Gelinas)

I wonder if she has a date for Saturday night? (Sean Brewer, Chris French and John Llodra)

"If I could travel through time, I would like to go back to the South during the early 1800's. My reason for going there is that I've always liked the pomposity of Southernors with their grand estates and gala affairs. I would very much enjoy living their lives of grandeur and luxury. I would describe life in the present as a time which has many conveniences to make life easier for us. I would also mention that in our present time, there are the problems of a future population explosion, world famine, and the threat of nuclear war. I would also have to say that during this time, we have made, and will continue to make, major scientific advances to insure a better future for ourselves and for our nation." (Susan Roy — #2 academically)

Surprise, Beth! (Beth Boutin)

Did you say something? (Donna Martineau)

Are we having fun yet? (Lynda Waller)

I don't care anymore! (Woody Hart)

Make my day — buy an "Eat Dirt" button. (Sandi Boardway)

Nice sign, Sophomores! (Fall Sports Rally)

"If I were able to travel through time, I would go back to the time when our Constitution was being formed because I would like very much to meet our forefathers, talk to them, attend some of the meetings held in Philadelphia and other places on on the formation of the Constitution, and to learn what no history book could ever tell me.

I would explain the present time as a period of constant change, advancements and discoveries; however, it is also a time when a nuclear disaster is an everposing threat and then any advancements or discoveries we have ever made would be of no use." (Carrie Ayers — #3 academically)

What did you say I just ate?? (Craig Authier, Steve Kijak)

You guys are so silly! (Stacy Bellerose)

Laura, trying to be studious? (Laura Boudreau)

What's the answer to #13? (Lauren Zielonka)

2159, plus 3124, plus 1987 equals .... (Craig Thomas)

Smile! You're on Candid Camera! (Jay Provoda)

"If I were to travel to a future time, I would tell people there of my own personal life style. I think this would give future people better insight as to what life they will have read about is really like. With concern to the present world situations, I would give the future people my opinions on them; although, having seen the outcome of the present crises, they would probably be able to give me more advice and useful knowledge about this than I could give them.

I don't think I would change the present time if I could, but I might have used any knowledge I gained for personal advantages. I take this view because I don't believe anyone has a right to interfere with history, but I also believe that if one knows how certain of his own actions will affect his own life overall, then he will be better able to make decisions. With such knowledge I don't think any person would make a wrong decision just because that is what he would have done if he hadn't known better." (Donna Boissonneault — #1 academically)

Don't bother me. (Greg Prince)

You *can't* be serious. (Doris Avery)

And your tax deductible will be ... (Liz Lastra)

Who's the fool behind the Foster Grants? (Sean Foley)

He *can't* be serious! (Stephanie Perreault)

Are you speaking to me, Officer? (Jennifer Blair)

I just *love* fire drills. (Lori Baranowski)

I'm *not* impressed. (Krys McClelland)

Miss Chicopee, 1987 (Jim Daigle)

Boy, I wish I had studied my Periodic Chart. (Brian Orzolek)

"If I were to travel to a future time, my advice to its people would be to live not only for themselves, but for those who follow. An abundance of something is not a signal for its abuse. They shouldn't use what we left them as a standard for what they leave the next generation. The idea of each man for himself would have to be put to rest, in an era when greed could end the world, if it already hadn't. The concept of trust would have to be established in its place. World-wide unity is the key to success. The youth of society should be made to realize that they are the future. Self-discipline of mind and action would be a necessity for a reversal of the trends of today." (Jim Chadwell — #3 academically)

And they say Juniors aren't jolly! (Fall Sports Rally)

Home Room — my favorite class. (Diane Giroux)

This better not go in the yearbook. (Kris Fredette)

I shouldn't have stayed up so late last night. (Vicki Bassett)

Who glued my locker shut? (Kati Nauman)

What do you mean it's not the right room? (Cheryl Kearns)

Are you *sure* there is school today? (Matt Gaudet)

"If I could travel to a future time, I would go to the end of the third world war. My reason for going to this time would be to try to help the survivors of the war prevent the same thing from happening again. My advice to them would be to make more of an effort to get along with the other remaining countries of the world. To get this point across, I would show them first the effort (or lack of it) extended by the leaders of this time, and then the disaster that resulted from it.

I would then tell the survivors a few ways that they could improve their relationships with other countries, like by trying to understand the foreign rulers in their native tongue, and by not breaking any contracts or treaties with other countries. These few simple courtesies might help in easing the tension between countries, and would therefore prevent another disaster like a world war." (Karen Berwaldt — #2 academically)

We brought home the sword!

(And brought down the seniors)

The "Pointer Sisters" stole the show, Halloween.

Cotillion was "Almost Paradise"

Junior Prom was a blast.

S.A.T. coming up,

Visiting colleges,

Thinking about careers.

FUTURE

Still too far,

One more year-the best.

Graduation's never going to arrive.

I can't wait.

Then again ...

The look of the '85 soccer squad. (Mike Kijak)

A face anyone could love. (Tony Feliton)

Hard at work. (Tim Edwards)

Senior Class Officers

President Kathleen Stec

To the class of '86,

It has been my honor and privilege to have been your class president these past two years. We are a class with high ideals. Through our many accomplishments of these past four, we have proven to be worthy of these ideals and also to be capable of living up to other people's high expectations of us.

Coming into the school as freshmen, we distinguished ourselves as individuals, and through the years remained close as a class. We have remained superior in athletics and academics, and our class spirit speaks for itself.

The class of '86 will always be remembered as a class that worked together and excelled because of its closeness. May the affection we share as classmates and friends continue in our futures, and may we always remember the good times we had at Chicopee Comp.

MARY ANNE MASON
Instructor

I extend my sincerest congratulations to the members of the class of 1986. Continue your pursuit for excellence and continue your concerns in developing a more understanding and humanistic world.

Richard A. Kryfka

To the class of 1986:

The accomplishments of this class are many, and I congratulate you on a job well done. Always keep in mind that your education does not end when you graduate. Your life is an education. Wishing each of you good fortune as well as good health and happiness.

Julie M. Leonard

To my class:

The class of 1986 has much to be proud of. Your achievements in the classroom, the shops, the fields of athletic competition and life in general rank you as one of the finest classes ever at Comp. As your administrator and advisor, I challenge you to continue your efforts on behalf of yourself and your fellow man. I wish each of you a healthy and happy life.

Alfred E. Puricelli

To the class of 1986:

Throughout the past four years we have all gained experience and relationships that will last a lifetime.

I hope that whatever knowledge you take with you will help you to be successful and productive in our growing society.

May I offer you my best wishes for health, happiness and success in all your future endeavors.

Douglas A. Gray

Special thanks to:

Mrs. Mary Filak, Memini advisor, for her devotion to producing a quality book and for her hard work far above and beyond the call of duty.
Mr. Don Lendry, Josten's representative, for his neverending patience and invaluable assistance.
The Greniers, for all the extra time and care they put in to provide us with photos.
Mr. Mitchell Kuzdzal, for his encouragement.
Mr. Alfred Pinciak, for all of his understanding, patience, and assistance.
Mrs. Julie Leonard, for her advice and support.
The Senior class officers, for their support.
Tammie Carroll and Denise Houle, for their artwork, especially for the cover.
